

THE FARMS AND RANGES

Edited by
Francis A. Chisholm, County Agricultural Agent

WILL INVESTIGATE FREIGHT RATES

An exhaustive study of transportation costs as they affect Arizona farmers and livestock men will be made this month by a distribution and transportation expert of the federal bureau of agricultural economics, with the assistance of the Arizona farm bureau federation and other agencies.

This was announced by W. M. Cook, manager of the state farm bureau, who said arrangements had been completed whereby the federal bureau will furnish its specialist at the request of the farm organization. The expert's expenses will be paid by the extension service of the University of Arizona college of agriculture.

Mr. Cross, the government expert, will arrive here early in September and spend a month in collecting all available data on the freight rate situation as it affects the marketing of the state's agricultural and livestock products. Three general classes of products will be studied, fruits and vegetables, cotton, and hay and grain. Livestock will be taken up independently.

Officials of the state farm bureau and other organizations believe the survey will be a valuable aid to farmers of the state, paving the way for adjustment of freight rates which are seriously handicapping the marketing of Arizona farm products in competition with those from states having more favorable rates.

Preliminary information for Mr. Cross' survey already is being collected by the state farm bureau, with the help of H. C. Heard, Maricopa county agricultural agent. The traffic bureau of the local chamber of commerce is preparing to furnish all data it has collected, and assistance also will be given by L. M. Harrison, agricultural statistician for the department of agriculture, and other agencies. The co-operation of business men in furnishing information is expected through the influence of the Arizona Industrial Congress.

CATTLE SALES HEAVY IN MOHAVE COUNTY

Nearly 2000 head of cattle were sold this week to Sterling Price who left for the coast Thursday. Of this number probably 50 per cent were yearlings and the balance two and three.

George Bonelli sold about 400 head, George Fancher more than 500, O. D. M. Gaddis, 200 head, Roscoe Stephens more than 200 with the possibility of selling several hundred more. Neal Brothers sold 300 head, Jess Martin 50 head and several others small amounts.

Mr. Price, who is a member of the firm of Cuddeback and Price, with offices in the Citizens National Bank Building in Los Angeles, expects to buy at least 500 head of cattle from Mohave county.

The price paid was five cents per pound, f. o. b. shipping point, and means \$25 or over for yearlings, about \$35 for two year olds and about \$45 for three year olds.

Mr. Price was assisted in making his purchases here by George Bonelli—Kingman Miner.

CROPS ARE GOOD NEAR FLAGSTAFF

Dr. Oscar C. Bartlett, field entomologist, makes a general report of field and crop conditions in the agricultural districts near Flagstaff. He says in part: "Things are looking good here. Most of the crops are in fine condition. Grain has suffered some from not enough rain, but only in spots. The potato crop is in fine condition, and the growers are looking forward to a good crop. The early blight has not shown up yet. Have been over a good number of acres in the past week, but no blight has been found. Many of the growers are spraying and Mr. Chisholm and I have set up two new machines for growers during the past week. It rained here all day yesterday. Puts a different face on some of the fellows that have been cussing because it didn't rain on their crops."

Chaos Still Reigns In China

General Wu Pei Fu, Vice Inspector General of the Provinces of Chihli, Shantung and Honan, leader of the troops at Peking.

KANSAS CITY WEEKLY MARKET REPORT

Cooler weather stimulated demand for hogs and prices rose 10 to 15 cents taking the market 35 to 40 cents above last week's low spot. Sheep and lambs were steady with top \$13.25. Cattle and calf receipts were liberal and prices showed a weaker tone. Medium classes of steers declined the most, and best stockers and feeders were steady.

Today's Receipts
Receipts today were 28,000 cattle, 8,000 hogs and 6,000 sheep, compared with 25,000 cattle, 8,000 hogs and 4,000 sheep a week ago, and 18,400 cattle, 6,200 hogs and 12,725 sheep a year ago.

Beef Steers eWak
Though cattle receipts were liberal they were not excessive, but with two roads short on cars for outgoing shipments trade was slow starting. At the outset sharply lower bids were placed but finally the general decline on medium classes was placed at 15 to 25 cents, and the best and commonest kinds were quoted steady to 15 cents lower. Offerings of fed steers were smaller than on preceding Mondays and the supply of wintered summer grazed classes was small. The big per cent of the offerings came from Kansas, Missouri, Oklahoma, Texas and New Mexico. Cows and heifers were 10 to 15 cents lower. Calves were steady to 50 cents lower, with the top price \$10.50.

Stockers and Feeders
Trade in the better classes of stock and feeding cattle was active at steady prices. Plain to fairly good kinds were weak to lower and in slow demand.

Hogs Higher
Hog prices rose 10 to 15 cents under an active demand. Both shippers and packers were in the competition. Cooler weather, which was favorable for handling hogs caused the increased outlet. The top price was \$9.25 and the bulk of the offerings sold at \$8.75 to \$9.15 or 35 to 40 cents above the low point last week. Pigs were steady at \$8 to \$8.50.

Sheep and Lambs Steady
Steady prices prevailed in the sheep division. Trade was active. Oat-fed lambs sold up to \$13 and western lambs up to \$13.25. Fat sheep and feeding lambs were in limited supply.

Horses and Mules
Receipts of horses and mules show a further increase over preceding Mondays and trade ruled fairly active at steady prices.

CHAS. M. PIPKIN,
Market Correspondent.

PREPARING FOR BIG FAIR AT PRESCOTT, OCTOBER 19, 20, 21

Thousands of dollars in cash awards will be paid by the Northern Arizona State Fair association in the various departments of the fair work, including mining, livestock, farming, educational, art, home economics, poultry, etc. Prize lists showing all classes and premiums will be mailed upon application to the association, at Prescott.

Keen interest in being shown in the work of the fair and officials predict that the 1922 fair will be the banner of all.

Advertising matter is now ready for distribution and within a short time, the entertainment program will be announced. The running races will be charge of Lester Ruffner and inquiries are being received from horsemen as far up the coast as Vancouver.

The Boy Scouts of America representing the boys of Northern Arizona will feature their work at the fair. In addition to their usual displays, a special radio outfit will be installed and messages received will be on for fair visitors. This station will be maintained in the Boy Scouts exhibit at the fair grounds.

Two exhibits of note: One from the American Federation of Art, at Washington, D. C., featuring the work of world-renowned American artists, and the other the largest exhibition en route throughout the country, that of the U. S. department of agriculture, showing work in the biological survey, the bureau of animal industry, good roads and the U. S. forestry departments, will enhance the displays of the five northern counties of Arizona.

All citizens of Arizona are cordially invited by the northern counties to take part in the activities attendant upon the northern fair, which will be held on October 19, 20 and 21.

COYOTES OR LOBO WOLVES KILLING YAVAPAI STOCK?

Coyotes that run in packs like wolves, and as they did in the old pioneer days, are reappearing in Yavapai county, according to Minor Bishop, cattleman and rancher near Thumb Butte, who told recently of how the coyotes lingered in the timber near where he was branding calves, and as fast as the crew of men moved on, the coyotes would dash out and tear down the calves.

According to Mr. Bishop, the coyotes are longer, rangier and bigger than a few years ago, and he says since the removal of the bounty on coyote pelts, hunters not having any incentive to kill the animals have let them go, until they have multiplied immensely. Other ranchers say they think it possible the coyotes have been crossed with some of the few remaining wolves of the state, thus getting larger and bolder.—Prescott Courier.
